

allowing F-word, S-word and female frontal or any kind of nudity will be very devastating on the coming generations. Look at the history Any nation who has chose to adopt perversion - namely allowing public nudity - in our time media resources are nothing but public nudity - that will be judged by God almighty and will drag the nation to the unrecoverable harm. United states is mightiest nation on the face of the earth and there is no doubt about it but by allowing profanity in media and make it legal is like opening flood gates of hell and destroy ourselves with our own hands.

I personally request humbly not to air/broadcast F/S words or nudity in its any form on the public media.
