

I oppose any changes to the current indecency standards that would allow television and radio stations to broadcast expletives and nudity.

I agree with the Supreme Court's decision upholding the FCC's authority to enforce policies regarding expletives and nudity, especially during times when children are likely to be listening or watching.

I do not see how allowing expletives and nudity, even in brief or limited measures, serves the public interest or strengthens our communities. Therefore, I urge... no I beg the FCC to reject all proposals that would allow for the broadcasting of expletives and nudity on public stations.
