

I am appalled at the thought of having profane language and nudity on television. As a mother of 4 I cannot believe there is even question that little eyes and ears should be hearing or seeing this. I censor what movies and shows they watch but how am I supposed to censor it if it allowed to be on television? The thought of this is ridiculous. This world is already corrupt enough with violent movies and obscene language and nudity in movies. We absolutely do not need this exposure on television. How are we supposed to keep innocent eyes innocent? This is not necessary to enjoy the television experience. I ask that you do not allow this to be on television.
