

This is a Christian founded nation. I will not support the anti-Christian politicians attacking the founding of this country. I am strongly opposed to the FCC allowing the "f-word" and nudity and other perversions to be shown over the open airwaves. This suggestion that YOU, the FCC are considering it, is just another sign of the sickness that is sweeping our nation. Specifically, chasing God and His truths out of our nation. We will suffer more and more as you do so. With these words written, I don't expect you, the FCC or the Obama administration to listen. You have been governing against the founding of the country and the will of the Republic for years. You will in the end do as you will. And so will we. You can allow whatever perversion and insult to Christianity and Christian values on the airwaves...we will simply not watch. You will puff yourselves up to those FEW that agree with you and the face you see in the mirror and you do it to your own demise. You can't break God's laws, you only break yourself trying to break God's laws.
