

I support the current FCC rules regarding nudity & language. I do not wish to have the rules be relaxed. In fact, some of the current language I've heard on TV & radio is TOO relaxed. I believe that expletives and nudity should be not be endorsed by the FCC at any time as they are not used in the average home. And I am especially appalled that you would consider allowing this while children are probably watching TV.

PLEASE do not change the rules, unless it would be to make them stricter.

Thank you

L Rogers
