

We want to stop aids, we want to stop teen pregnancy, rape, etc. etc.....But yet tv and radio are making illicit sex a normal life style. What is happening, we can't talk or show anything to do with cigarettes, but we can show all the sex and nudity? Lets change the next generation of children, by not allowing profanity, sex, and nudity on tv and radios, lets raise a generation of people with morals. Please do not allow any more offensive language on broadcast.
