

The F word & nudity shouldn't be allowed on tv--- yrs ago that wouldn't even been thought of-- I have to change the tv to a different channel with sum of these commercial's that plays-- and that's watching on a family channel..... This world sure is getting bad... And I am trying to keep my children for that filth.. I filter what my children watch--- however-- I shouldn't have to filter everything that's on tv.. It's almost getting so bad-- we should just get rid of the tv-- don't want-- there r sum good shows on there--- for they are very few and far between.... Please consider all these parents wishes---for they r ligit.

Thanks!!
