

The government and everyone has allowed our morals to be dragged to the pits already. Please do not allow this type of vulgar language and activity to take over regular T.V. We need to set an example for our young people. The media and all the violence and trash are just as responsible for the rash of killings as anyone. Gun's have NEVER killes one single person, It is the person who has become corrupted that does the killing.

Step up and repersent the majority of the American people, not the deep pockes jerks that are buying off the USA.

God Bless & Good Fishn'

Capt. Sam Williams
