

It has come to my attention that the FCC is considering dropping current broadcast decency standards. I have to say it already is difficult to find wholesome television that my entire family of 6 can watch together, other than sport channels.

We were hoping that there would be stricter enforcement around language and nudity. It frustrates us that try to instill decency, modesty and core values that bring out the good in is not valued in the entertainment industry. I grew up watching tv and using that as my stress releaser, My Favorite show was Little House On The Prairie and my kids love that show and as a family the few shows we watch together and enjoy as a family is Heartland, Merlin, Nikkita, and other entertaining shows that have good stories with very little faulty language and nudity.

Thanks you for accepting comments and I hope that the people in charge of making these decisions for all Americans of what we are going to be subjected to has a set of core values and a soul that understand and embraces wholeseom living and can understand the depth of what we subject our kids too. It does have an effect on our lives and how we choose to live our lives. Especially when kids are spending more time in front of a screen than outside. How do you want your choices to help shape our country and what we value? **YOU DO MAKE A DIFFERENCE, what DIFFERENCE DO YOU WANT TO MAKE?** What do you want to stand for? If money and power, is your only true reason or subjected by those with power and money, than evil has won! This will be another stepping stone that continues to derail our society as a whole.
