

I oppose any changes to the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on the public airwaves, even if brief or "fleeting." The Supreme Court has confirmed the FCC's authority to enforce policies regarding expletives and nudity, especially during times when children are likely to be watching or listening. Relaxing the current policy would not serve the public interest and I urge the FCC to reject all proposals that would allow for the broadcast of expletives and nudity on FCC-licensed stations. You also need to remove other swear words like "DAMN & BITCH" as well as showing soft porno also from films, tv programs & soap operas (especially the soap operas).

If you proceed to continue to allow these things I myself will impose a lawsuit against you the FCC for not protecting ours & our childrens rights to watch tv with seeing or hearing things they should not be hearing or seeing on television. Consider your children, grandchildren & great grandchildren in your decision. Would you want them exposed to any of this & what kind of morals & values do you want then to see, hear, know & learn from the television? You also need to ban homosexual/gay relationships from appearing on any television programming & films because this is totally wrong & should not be exposed to children on any television program, soap opera (especially the soap operas) or in films.
