

Please do not remove the ban on nudity, inappropriate sexual acts, and coarse obscene words. I am a Nurse married to a professional man and I have seen how our world by lowering standards in different areas of life, has become more comfortable with "gutter life" than with clean, honest, pure, loving, uplifting, healing, forgiving, and encouraging examples. Having worked and helped in a city, county hospital in a big city where we saw all levels of life, I have seen real LIFE not a "made up media" version!
