

PLEASE DO NOT change the current FCC standards for TV and Radio where nudity and expletives are concerned. What good can be served by lowering standards? Schools have policies against using this type language. Putting these words and nudity on TV will only serve to undermine the rules that schools and most parents are trying to enforce. The Supreme Court has always supported not showing nudity and airing shows using expletives during the hours when children may be viewing/listening. I think they are correct in their ruling. I urge you to keep the policy as is. No good can come from amending the current policy.

Sincerely,

Cheryl Matrazzo
