

I was a radio-tv major in college in the late 60's. Even though that was a socially unsettled time we still had the good sense to keep taste in programming. I am a retired educator and saw the impact the media has on our kids. I'd like to see more of the previous sanctions put back let alone not allowing the f word to be used. let's put some good sense back in America. Kids are like sponges and soak up what we give to them.
