

Please consider the problems of pornography, young people having sex and babies, the sex trade, the disrespect of speaking words which limit good conversation!!! The harm of children being able to watch and listen to adult content daily!!!! What are you trying to do to America??? If you do this, we will give up TV!! So many programs are already unwatchable and you do this evil deed, it is my belief what you will do will harm the lives of men and women and children in the United States of America AND the world and will bring further destruction and hardship for all!!!
