

I defiantly oppose removing the ban from what has been deemed offensive and non-age appropriate language as well as frontal nudity on our nations broadcasts. Our country was founded as one nation under God. We must hold our values at a higher standard than any other country since we proclaim such position. The future morality of our country is at stake when we relax the very standards that make this country great. Where is the limit if we, in our generation, do not uphold the standards that our forefathers laid before us? If we choose to relax these standards now, just a small amount, we begin a trickle that will eventually become the raging river, as each generation shall observe that the one prior had no issue in doing so. The United States of America FCC has an obligation to citizens for the censorship which protect the moral fiber of our society! Dare we test the very limit of God's mercy? Dare we attempt to find the boundary of His blessing on this country? Do not remove the principles that have been upheld thus far by the FCC. Keep the ban in place and thank God for the privilege he affords us to stand for His way, as we prove to be good stewards of such responsibility.
