

While conducting a poll for a local cable system, the chief complaint was "clean up TV, it's filthy". As a parent, I can only agree with the customers! People don't want to see this on broadcast stations or premium stations. I believe, as do my customers, that TV is filthy already! Please, please don't vote to make it more so! If anything, it should be less smutty. Our children do not need any more exposure than they are already subjected to! Protecting them is our job as moral adults and children of God.

Thank you for your consideration,  
Lexie Smith
