

I urge you to refrain from allowing radio and television stations to broadcast vulgar words and nudity on the public airwaves. Such words and pictures are unnecessary, excessive and just wrong and have not place in the public. It is quite difficult to find programming that is suitable for families to feel comfortable in allowing children to watch. Making more concessions will only serve to drive the family away and continue numbing of the minds of those who will watch and listen. For the sake of what is right and good, I urge you in the strongest of terms, **DO NOT** give in to this proposal.

Thank you,

Randy C. Ginn
