

Please answer me this question: Why does the FCC ban on expletives and nudity need to be lifted? How would this serve our children and communities well? PLEASE think of your own families and the future of this great nation!

There is already WAY TOO MUCH trash on our television, please do not take away the censors. Our children are exposed to enough already. Let's challenge producers to be creative and intelligent enough to produce shows that entertain without profanity, vulgarity and pornography. Please fight to preserve some decency in our programming!
