

Dear FCC,

I appreciate you wanting to hear from "We the People." I am hopeful that my family, who happen to be Christian will not be forced to make the decision to eliminate t.v. from our homes. We would not view shows with this new push to move the "ethical' ball into the pits of hell, however what about the random commercials? Once this passes, what will be next? What is the end goal and how far are you willing to go?

We stand for Jesus and the Bible. We will not tolerate this push of indecency nor will many, many others. Please do not let this happen to our country.

Thank you,

Chris Kissling
