

I am vehemently opposed to the allowance of swearing and frontal nudity on public television, radio or any other media which will be exposed to children.

This will worsen the already degrading moral standards of children and adults alike. They will become even more desensitized to things that have been wrong for decades. Our country is already struggling due to the break down of the moral standards it was built upon. Please do not further this loss of morals by making vulgar language and inappropriate television readily available.
