

Please, please don't remove the ban on indecency on radio and TV! We see and hear enough as it is already! I strongly oppose exposing our kids and even adults to more sex and profanity! I know we have a choice to watch or not, but whether we like it or not, we know there are kids that have access to more things these days than they should! I think we should be censoring more rather than allowing more! If you have the power, please choose to use it for the good of our kids and families instead of endangering them even more!
