

We are living in a sick sick world. Please do not decide to condone what is morally and ethically wrong. You have taught your children not to swear, use filthy language, and I hope you have taught them to dress appropriately. No one needs to see or hear poor language and inappropriate nudity on tv, billboards or anything else. What is the point??? What good does it accomplish??? What is the reasoning behind this??? How is it useful??? Don't do this to America. We are already a laughing stock amongst the other countries. Do you really need to take another step in that direction??? Please, for the love of God, wake up!!! He is still in control whether you decide to put him there or not. Don't anger HIM any more than HE is already with us. I pray that this is stopped at whatever cost is necessary, in Jesus' name!!!
