

I am completely AGAINST the relaxing of the Indecency standards for television broadcasts by the FCC. The relaxing of these standards does NOT promote the general welfare of the states or its people. It is one further step down the path to moral decay that we embarked on in 1962 when prayer was removed from schools.

We have been a privileged nation UNDER GOD, but we are leaving God by the wayside simply to reduce a backlog of cases before the FCC???

We have forgotten our children. We have forgotten the difference between right and wrong, frequently reversing the definitions of each. Would you want your children exposed to this language and behavior? I think not. My grand children are not animals and will not be raised like one. They are both creations of God Almighty and will be raised in His fear and admonition.

Your pending action is wrong...period! Do not allow the indecency standards to change...in Jesus name...Amen.
