

I am against The FCC allowing any nudity or cuss words of any kind. TV today has gotten out of hand and is looking like soft pornography! We as people should not have to endure watching this trash or hearing the repeated cuss words or beeping them out, the intent is still there! We should be able to enjoy TV with or without our children and not have to monitor or watch a show first to make sure it is appropriate for our family. All these reality shows are just disgusting and horrible and is not the way real life works. Please go back to the way tv was in the 1950's. Pure and wholesome with good family values!
