

To whom it may concern, please do not allow words or nudity that are demeaning to viewers, especially words and images that the "new FCC policy would allow network television and local radio stations to air the f-word, the s-word and to allow programs to show frontal female nudity" . Allowing vulgar language and any nudity to be aired by any means is unethical. There is enough despairing use of the English language and nudity being heard and seen through out the TV, Videos, Radio, Internet and etc. These only demoralize the person or persons that come in contact with them and for anyone to openly acknowledge their use as to these words or images as to be needed, is offensive.

Therefore, I repeat my plea as stated "I oppose any changes to the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on the public airwaves, even if brief or "fleeting."

The Supreme Court has confirmed the FCC's authority to enforce policies regarding expletives and nudity, especially during times when children are likely to be watching or listening.

Relaxing the current policy would not serve the public interest and I urge the FCC to reject all proposals that would allow for the broadcast of expletives and nudity on FCC-licensed stations."
