

Have we lost all decency? I am outraged that this is even being considered. Our children are already exposed to too much on tv and radio, and we as a society wonder why children are so disrespectful and promiscuous. As a parent it is getting harder and harder to shield our children from sex and violence in this world (I can't even watch the news in front of them anymore) when they are exposed to so much on radio and tv. I am ready to throw every electronic device out of my home and will do so if this passes. No one will profit at the expense of my child's innocence! I draw the line there!
