

I oppose any changes that the fcc is wanting to change concerning nudity and cursing how do you expect our children to stay age appropriate children if you are exposing them to adult situations and swearing. It is bad enough that our society has lowered its standards with all the rise of teenage pregnancy, std's, and closed minded religious beliefs by taking prayer out of schools. Now you want us to tolerate the trash you perceive as entertainment on daytime television. If it comes down to it my next statement will be jerking the tv monitor and all the extra's out of the wall and burning it on my front lawn. We lived without tv's before we can do it again, it's hard to have ratings with no one watching.
