

I support the changes to the the FCC indecency standards that would allow expletives and nudity on the public airwaves. The most vocal individuals are generally the ones who oppose certain changes but I am here to support the changes. The majority of other developed countries have allowed more relaxed restrictions of what can be shown on public airwaves. The AFA has a nice cutesy name of sounding like they have they back the ideals of the majority and are there to protect the next generation. I have learned through growing up that this name is deceiving and that the AFA does not in fact have the interests of the majority in mind. The AFA is extremely vocal as they are the opposing party to the changes and I urge you to not bend and give up ground on this issue where religion is restricting law. Thank you for your consideration.
