

Sir/Ma'am,

My state is AE, Armed Forces Europe I choose NY since that is the technical location and you do not consider drop down options for AE/AP for military stationed overseas.

Respectfully requesting that you do not make the standards more easy to abuse, instead uphold the Supreme Court current policy and DO NOT cave to public opinion to allow the use of the F word or full frontal nudity.

Thank you for your careful consideration regarding this matter. Remember the children/the future leaders of America as you make your final decision.

God bless.
