

Please do not change the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on public airwaves.

The Supreme Court has confirmed FCC authority to enforce these present policy. Keep decency in the airwaves. Our children as well as adults need to see and hear good, decent conversations and visions. Let's help our citizens to be decent law abiding people. We certainly do not need any more immorality in our wonderful country of United States of America.
