

The "f" word brings so much clarity to our listening? NOT.

It is very sad that writers can not write a script with out reverting to 4 letter words. Sad that our schools have failed to educate beyond 4 letter words. And why must the nude body be thrown in our face?

Please keep our airwaves clean. It is not just about the kids. I don't care about hearing and seeing all that, and I am 61.

Thank you.
