

Please do not allow our public broadcasting to be subject to nudity or swearing using any word they choose to be used as entertainment. We do not want to watch or listen to programming like this, or be forced to have it available. If you are changing rules to allow this I am requesting you do not. This is a crime against society. There's a small number of people who are into pornography, and this conduct. Most of us dislike it, don't require it, or desire it. Thank you.
