

I am writing concerning the FCC proposal to drop the ban on the F-word, S-word and non-sexual female frontal nudity. Please do not drop this ban. As a father, I am constantly battling the media, and limiting what my children watch in order to keep them as virtuous and innocent for as long as possible. I am not able to completely block them from inappropriate content on television, but if the FCC enacts this proposal, I will have no choice but to eliminate television from our house entirely. I will not let my kids be subjected to this offensive content. Please, **DO NOT DROP THIS BAN!**
