

I strongly encourage this ban of nudity and explicit words to be kept in full force! Our youth, and adults for the matter, do not need to continue to be encouraged to have filth come out of their mouths nor show parts of their body that should be kept intimate. Its no wonder we have pedophiles and such when we openly accept and encourage this type of behavior through our media. We should be encouraging the development of intelligent vocabularies to express ourselves and worthwhile behaviors that will better lives. Let's reset the standard of class a bit higher. PLEASE PLEASE PLEASE do not lift this ban! I worry so much for my 4 year-old daughter as I compare the shows I watched as a child to the ones that now offered to her. There is definitely a lower quality to a lot of those shows. I don't think I can continue to allow a tv in the house if it is no longer filtered in the least. Again, please don't lift this ban.
