

I don't agree with the proposed changes. As is, as a parent, it is very hard to control what my boys see and hear from the "public" such as school. I don't want them to be exposed such indecent contents on TV channels which are available to ANYONE, regardless of the age of the viewer. I may be able to control it at home, but when my boys go over to someone else's house with less vigilance, then they will be exposed to contents that I believe to be harmful for young boys. Please do not allow this changes to pass.
