

Please be understanding in my concern for the amount nudity and cuss words that are allowed in your programs on TV. Particularly the "F" bomb. We are supposed to be protecting our children from such filth, and these programs are very degrading for young women and young men in thinking these behaviors are acceptable and there for, lead to teen pregnancies and other destructive behaviors. Please help parents protect their children of all ages and put a ban on such words and behaviors on TV. Thank you.
