

from my view point, i'd say that there is way too much violence, filth, and disrespect in this country. if we put all this in our children's ears and in front of their eyes, then why wouldn't they be violent , filthy speaking, and disrespectful to their parents and persons of authority?

if this bill passes and is added to the already bad choices of allowing nudity, vulgarity, and horror etc. to children's,(and not to mention we adults who don't want it), programs on tv, radio, etc. then don't ask; why are people stealing, killing, hateful, etc.? because what goes in comes out.

thank you
