

I am dissapointed that you are even considering allowing the already inapropriate material to get worse on TV. Although you may have the 1st ammendment right, I also have the same right and by allowing this material to be plastered all over america you are in violation of my 1st ammendment rights. I will not be able to take my family to a public environment without the threat of your trash being shown through commercials and other avenues of "so-called" entertainment. I think enough is enough and if you consider your program a value to the country please try to do something valuable and stop supporting the movement to dumb down and degrade our youth.
