

Dear Sir or Madam: Many many years ago my then four year old daughter said G-- Dam- it and guess where she got that from? Her good ole Mom. It is a shame that spoken lanugage that should be beautiful is just the opposite. Me, her mom had to change the way I spoke. And a sign of 21 years of sobriety is my language. No longer do any of those four letter foul words come out of my mouth. Please do not allow our children to learn them from the media. Thank you.
