

Greetings,

I am not strictly a christian but I have a strong moral sense of value and the language which comes over the Television and radio I find to be offensive. If I have a lady friend with me it is very embarassing to me when either music or a comment is made carrying pornographic language.

In most cases on Television I find it serves no purpose to enhance the dialogue but mere effect and an effect to desensitize society, a communist goal. When I am watching Television and sexually graphic scenes are portrayed on the set I become extremely embarassed especially if I have a lady friend joining me. This material should never have made it to the air waves anyway, especially when young children can easily access the material without parents knowing.

If I am on a date and I hear music or a commentator using explicit language I become embarassed. When you go to the mall or grocery store or park or anywhere else you do not hear this level of language, even in bars the language can become rough but it is not as intense as it is presented on the airwaves.

Get some common decency and virtue and clean the air waves up to also include music. The making of a recording with profanity is not a violation of free speach. They have every right to go out and speak it wherever they wish. I must also include literature for this language serves absolutely no purpose in forwarding a plot or character. Should such music or literature be made then there is a private source where it can be produced without violating the first amendment. but to force others to be captive to it is a violation of my right to due process of expressing the riding of this vilness.
