

Enlightened Gentlemen of Authority:

Why would you consider allowing more gutter language on TV and Radio which coarsens our society. With rape and other sexual crimes rampant in America, why would you allow nudity to stoke the fires of sexual perversion. You are already responsible for bringing us to the brink of the destruction mentioned in the Bible in regard to Sodom and Gommorah which were destryed in one night by Almighty God who created us. Those of you who value adding more trash for people to see and lowers morals even further should resign and work for the pornograpy industry where you will be more at home!
