

I definitely do not want to see the rules concerning the broadcasting of profanity and nudity loosened. I feel that many of today's TV shows already are much too liberal with language and situations during early evening hours. TV really does seem to be a vast waste land at times and I find myself watching mostly news and sporting programs and listening to music which is broadcast via satellite. Please, many TV shows are already offensive. Don't make it any worse, at least not until AFTER 10:00p.m.. Thank you.
