

Good Evening:

I am very concerned about the announcement today that the FCC is considering allowing much more vulgar language and nudity on television. Please do not make things worse than they already are! We rely on free digital broadcast TV not only because it is free, but because of no nudity, less vulgarity, no alcohol and cigarettes adds, etc. If you make this change we will get rid of our digital converter and not allow this kind of TV programing into our home, which is harmful ourselves and children. I also am the leader and representative of a church congregation of 426 members. We vigorously oppose what is being proposed or consider. We respectfully ask you to tighten not loosen standards regarding vulgarity, modesty and nudity allowed on TV.

Fearfully,

Jody A. Gale

Bishop,

Annabella 2nd Ward of the Church of Jesus Christ of Latter-day Saints
