

PLEASE don't allow this to happen. Go to the following link and read what an individual has to say about having been addicted to porn: <http://serendip.brynmawr.edu/exchange/node/345>. His comment is listed under "Porn addiction."

We do not want others to have to go through what he has just because they turn on the tv--  
ESPECIALLY children!

Please, leave it out for the sake of the children.
