

My family and I are greatly opposed to any changes by the FCC to allow any more leniency for the f--- word or nudity of any kind. The care and concern for our children and youth has been greatly compromised extremely already. You have a responsibility to serve the public morally and ethically. Families do not want this filth to continue on family air wave times which is 6:00 am to at least 10:00pm 7 days a week.

Do not subject the American family to any more degrading morally or ethically.
