RE: Areas Shown as Unserved on the National Broadband Map for Connect America
Phase I Incremental Support¹, WC Docket No. 10-90

Dear Ms. Dortch:

This letter and attached census blocks lists are being filed in response to a January 24, 2013 letter filed by Ms. Amy Linzey, President of W.T. Services, Inc. (WTS). Ms. Linzey's January 24th letter was made in response to Public Notices issued by the Wireline Competition Bureau requesting comments on census blocks in price cap service areas shown as unserved on the National Broadband Map. WTS is a provider of fixed terrestrial broadband services in the Texas Panhandle, serving three rural exchanges and offering maximum advertised download speeds of 10Mbps - 25Mbps broadband services to several census blocks that are marked as *unserved* on the National Broadband Map.

Please accept the attached census blocks lists that represent all broadband served areas by WTS. We trust the National Broadband Map will be updated in accordance with the attached files.
