

I STRONGLY oppose any changes allowing TV and radio stations to broadcast ANY expletives and/or nudity on the public airwaves of any nature or duration.

The FCC has the authority and responsibility to enforce policies regarding expletives and nudity, at all times, but especially when children are likely to be affected.

Any change to the the current policy would NOT serve the public interest. I STRONGLY urge the FCC to reject all proposals allowing the broadcasting of expletives and nudity on FCC-licensed stations of any medium.
