

I'm not shocked by this at all and none of us should be. One of our sons with children doesn't have TV. The other only has basic TV to watch news and barely turns it on. All this because there's no way to control every second their children watch. My husband and I are embarrassed by what's on many shows and we normally tape what we watch so we can fast forward through commercials.

I believe Christians allowed and continue to allow the secular community to BULLY us into being docile Christians. They wanted us to sit there without a voice while they used every resource they had to get every vile vehicle of the devil onto television in the name of art and news.

I also believe the secular community uses the actions of religious terrorist, zealots to embarrass use into being quiet and sitting by because we are afraid of being lumped with them. We also hurt ourselves by being believing and passing along every untruthful comment we see on the Internet and in emails about some of the people we disagree with.

I pray we STOP being managed by people who don't believe in God and use all our resources, first and foremost PRAYER, to prevent discrimination of Christians, our rights and get more good TV than bad ----- even get the bad TV stamped out. It may end up being the 'will of the people'.
