

I firmly oppose changes to FCC indecency policy that would allow expletives and/or nudity, even for brief moments of time.

As an expectant mother, this raises concerns not only for my future children, but also for my entire family. I personally avoid hearing expletives (especially strong ones) and seeing nudity as much as possible. Changes in what is allowed on public airwaves would have an incredibly negative impact on my and my family's future participation.

Please keep public content appropriate.
