

I oppose letting more nudity and vulgar language on TV. I watch TV for pleasure and do not want to be offended by these types of vulgarity. If this is passed I will no longer continue my Dish network nor any other TV and will go strictly with home movies that I select which then keeps me from news and other sources, such as the history channel etc which I truly enjoy. I will not agree to this invasion of my TV watching and neither should you. This world is bad enough, let's not make it worse. Thank you.
